- 29pc hobby knife set. (Cavo's)

Words Worth Reading:

In times of extremity, ordinary individuals must reach into the depths of themselves, and there they find the true content of their character. Some find emptiness, frailty, even dark impulses. But others find wondrous virtues - courage, resourcefulness, self-sacrifice, daring, ingenuity, the will to soldier on when will is all they have left. These are the virtues that turn history, and these are the virtues that enable individuals to prevail in the supreme trials of their lives. It is in times of superlative hardship that individuals live their epic adventures, stories that thrill, fascinate, inspire, and illuminate.

Unbroken by Laura Hillenbrand

Hardware Humor :

Funny true story from a hardware store - on the importance of correct punctuation!

We sell pecans in the fall and ship them from our post office in the store. We will also crack the pecans for a nominal price in our cracking machine. One year, obviously not thinking, I put on the portable sign on the street: WE SELL CRACK AND SHIP PECANS. It only took an hour to make me walk outside and change the sign. Customers still come in and ask if we are back in the drug business yet.

Gary Johnson

Commodities Update:

- Clark Dietrich has put out a 5% price increase announcement on steel studs for 4/1/15, but if it's like some of the recent increase attempts, it's not likely to stick.
- As suspected, we have received our 2015 pricing for Versa-lok retaining wall blocks and most items have increased slightly.
- IKO has announced a 5-7% price increase for 5/4/15 on roofing shingles, but it is unlikely to affect retail pricing for the near term.
- Panel products: OSB prices are still quite flat as demand has not yet kicked in. SYP plywood has been the active panel product again. Already on the high side of traditional pricing, we are seeing very noticeable increases in the past few weeks.
- Dimension lumber: Eastern/Western Spruce and Coastal/Inland Fir are trying (unsuccessfully) to gather steam to push prices up but to no avail. SYP dimension may have hit bottom and is starting to move up in price which will mean in our region that pressure treated prices will increase.

Brain Builder: Can you hammer out the answer?

There are four houses in our cul-de-sac. They are made from these materials: straw, wood, brick and glass.

Mrs. Scott's house is somewhere to the left of the wooden one and the third one along is brick.

Mrs. Umbrella owns a straw house and Mr. Tinsley does not live at either end, but lives somewhere to the right of the glass house.

Mr. Wilshaw lives in the fourth house, whilst the first house is not made from straw.

Who lives where, and what is their house made from?

For the answer to this month's
BRAIN BUILDER!
