Words Worth Reading:

Quotes from Fr. Ted Hesburgh, (who died earlier this year) former president of the University of Notre Dame.

Indeed, I can think of no better way of redeeming this tragic world today than by love and laughter. Too many of the young have forgotten how to laugh, and too many of the elders have forgotten how to love. Would not the dark tragedy of our life be lightened if only we could all learn to laugh more easily at ourselves and to love one another.

-The Hesburgh Papers, 1979

Don't be like some Americans who simply live in their own little world, enjoy their superabundance and never think about the rest of the people and what they're up against. Be the kind of person who not only understands the injustices of this life but is also willing to do something about them.

-Commencement address, University of Nebraska, 1986

My basic principle is that you don't make decisions because they are easy, you don't make them because they're cheap, you don't make them because they're popular; you make them because they are right.

-What Works for Me, 1986

Commodities Update:

Wow! Not much to report by way of price increases this month with the exception of the few items below. Can't remember the last time there were so few increases in a summer month.

- USG Interiors has announced a price increase on ceiling tile of 5% on 8/10/15.
- Guardian/Knauf will increase metal building insulation/basement blankets by 9% on July 3.
- Panel products: OSB remains steady but with order files at the mill level pushing deliveries out further, more increases appear likely. SYP plywood has taken a breather from price increases, but it is anticipated that pricing will remain strong.
- Dimension lumber: Both eastern and western spruce continue to gain ground price wise, but at a much slower pace than the last month or so. Annual mill summer shutdowns are on the horizon, which usually means prices will maintain their levels at a minimum, or could noticeably increase given the right supply/demand conditions. SYP dimension prices are on the rise which will translate into higher treated prices.

Hardware Humor:

Brain Builder: Can you hammer out the answer?

Unscramble the following letters to reveal this July word:
