

ENCOMPASS BY PELLA® VINYL WINDOWS

Our most popular styles are as beautiful as they are functional.

Double- and Single-Hung Windows

The lower sash of a single-hung window can be raised to let the breeze in, and a double-hung window offers maximum ventilation – both upper and lower sashes open.

Years of smooth, easy operation. Our balance system helps ensure your window will open and close easily.

A tighter seal against the elements. Pella's cam-action locks pull the sashes against the weatherstripping. Goodbye, drafts.

One less thing to worry about. AutoLock hardware automatically locks windows when shut. Simply close your window and confirm it latches. **W**

Easier cleaning. Opening sash tilts in – making it easy to clean the exterior glass from inside your home.

W Available in West Region only.

E Available in East Region only.

Sliding Windows

Sashes slide open horizontally, so you don't have to reach up or bend down to open and close them.

Easy operation. Tandem nylon rollers are extra-durable and help ensure smooth openings and closings.

A tighter seal against the elements. Pella's cam-action locks pull the sashes against the weatherstripping. Goodbye, drafts.

One less thing to worry about. AutoLock hardware automatically locks windows when shut. Simply close your window and confirm it latches. **W**

Easy to clean. Sliding sash can be removed to clean exterior glass from inside your home.

¹ Warning: Use caution when children or pets are around open windows and doors. Screens are not designed to retain children or pets.

² Appearance of exterior grille color may vary depending on the Low-E insulating glass selection.

³ Grille patterns offered may vary per product. See specific product information for availability.

NOTE: Because of printing limitations, actual colors may vary from those shown.

Because we're always working to further refine our products and develop new ones, specifications may change without notice.
