**Words Worth Reading:**

**"My Sons"**

**I love you because you exist,  
because you are you,  
and because you are mine.**

**And there is nothing else that matters.**

**I love you with a love that's calm and steady,  
an everyday love that pulls me along every day.  
I love you with a love that's immense and fierce,  
that bursts out of my chest,  
dares the world,  
and screams for you to hear it.**

**I love you with a heart that aches with hope  
for your health and your happiness.**

**I don't love you because you love me,  
or because of what you do or don't.  
I don't love you because I have to,  
or because I choose to.**

**I love you because it is impossible for me not to.**

**You are a part of me and I am a part of you  
forever.**

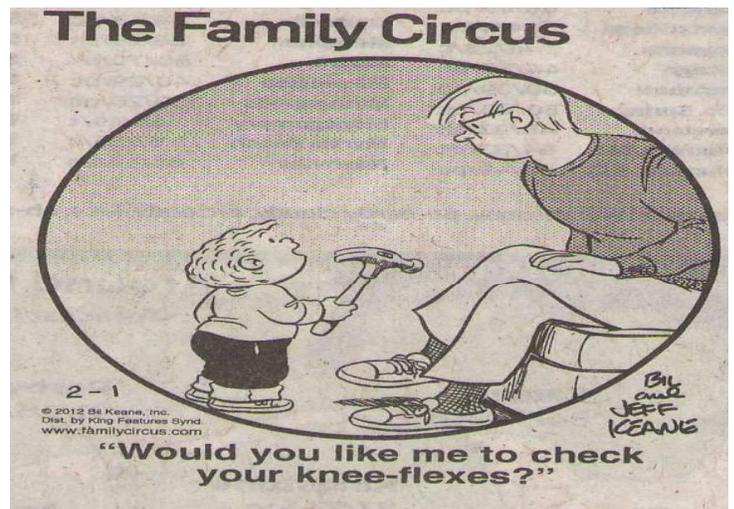

**I want to keep you close,  
as you grow up and I grow old,  
But, come what may--  
distance,  
disagreements,  
even death--  
know this:  
I love you  
simple because you are.**

**Commodities Update:**

- We are continuing our transition from Guardian Fiberglass to Johns Manville fiberglass insulation. Pricing is quite attractive and product quality is excellent.
- There has been some softening of price on a few of our commodity products (steel studs, roofing) this year so far but we don't know how long it will last.
- Dimension lumber: After a number of weeks of falling prices on Eastern and Western Spruce, last week took a slight jump. Might be just a price correction or a sign of things to come.
- Panel Products: Both SYP and OSB markets saw increases last week with OSB being the big surprise. After weeks - maybe months - of stagnant prices the last two weeks have seen moderate increases. Where it will go from here is anyone's guess.
