While Supplies Last

Commodities Update:

- While Clark Dietrich has a 15% increase for steel studs scheduled for 10/1, it is unlikely they will get that increase. The last one for August did not go the full announcement increase, and we have not yet even raised prices for that increase because it is viewed as short lived pricing, with decreases expected.
- ABC has similarly delayed its August increase of steel roofing/siding to September.
- While USG has not announced official increases, other gypsum manufacturers have rescinded their August increases.
- Panel products: OSB prices have held steady, neither increasing or decreasing after it's recent run-up. SYP plywood has been waivering up and down, but of late has seen slight increases.
- Dimension lumber in general has seen a steadiness of price over the last few weeks with the exception of southern yellow pine (used for PT lumber) which saw pretty healthy increases early this month following by similar decreases recently.

New Inventory Items:

- Both Cavo's & Ilion Lumber have received a merchandiser that contains both Pex plumbing fittings and additional Sharkbite selections.

- American Power Pull Cable Puller 2ton Cavo's /Ilion

- Fresh Cab Rodent animal repellent Cavo's

- Milwaukee 2pc step drill bit #4-Cavo's

Words Worth Reading:

Stern rules for teachers

In the early days of the one-room learning, school teachers did not have to earn their way into a classroom through a four-year college degree.

But they had to pass a different kind of test then, and the eyes of the community were often upon them.

Town of Chenango Historian Robert L. Bridges unearthed this list of requirements for teachers from an historical society newsletter.

The list was composed for teachers in Franklin Mass, in 1870.

Undoubtedly many towns had similar requirements:

1. Each day teachers will fill lamps, clean chimneys and trim wicks.
2. Each teacher will bring a bucket of water and scuttle of coal for the day's session.
3. Make pens carefully. You may whittle nibs to the individual taste of the pupil.
4. Men teachers may take one night each week for courting purposes, or two evenings a week if they go to church regularly.
5. After school the teacher must spend the time until supper reading the Bible and other good books.
6. Women teachers who marry or engage in unseemly conduct will be discharged.
7. Every teacher should lay aside from each month's pay a goodly sum for his benefit during his declining years so that he will not become a burden on society.
8. Any teacher who smokes, uses liquor in any form, frequents pool halls of any kind, or gets a shave in a barber shop will give good reason to suspect his worth.
9. The teacher who performs his duties regularly and faithfully without fault, for five years, shall be given an increase of 25 cents a week in his pay, providing the Board of Education approves.

Hardware Humor: Close to Home – John McPherson

Brain Builder: Try it! See what you come up with.

A completely black dog was strolling down Main Street during a total blackout affecting the entire town. Not a single streetlight had been on for hours. As the dog crosses the center of the road a Buick Skylark with 2 broken headlights speeds towards it, but manages to swerve out of the way just in time. How could the driver see the dog to swerve in time?

For the answer to this month's

BRAIN BUILDER!
