

FLASHING

Turn to Grip-Rite when looking for quality building products.

Grip-Rite® flashing is placed around discontinuities or objects which protrude from the roof of a building, such as pipes, chimneys, or the edges of other roofs to deflect water away from seams or joints.

Available in:

- ✓ Aluminum and galvanized roll valley
- ✓ Economy and standard gauge
- ✓ Painted steel roll valley available
- ✓ 4 in. to 36 in. widths
- ✓ 10, 25, and 50 ft. lengths
