

15/32" 48"X96" Rated Sheathing Exposure 1 Western 5PLY 32/16

Description Manufactured from thin sheets of cross-laminated veneer and bonded under heat and pressure with strong adhesives, plywood has been one of the most ubiquitous building products for decades.

Plywood manufactured by APA member mills is available in a wide variety of appearance grades ranging from smooth, natural surfaces suitable for finish work and underlayment to more economical grades used for wall sheathing and subfloors. With more than a dozen common thicknesses and over twenty different grades, it's easy to specify the right panel for the job.
