Material Safety Data Sheet

1. Product & Company Identification

Manufacturer's Name: CMS Industries, Inc.

Product Name: HEAT STOP PRE-MIX

CAS NO: Mixture

Common Name: Air Setting Refractory Mortar or Patching Mix

Orchard Park, NY 14127

716-667-2321

PO Box 60

Revision Date: February 3, 2012

2. Hazards Identification

Potential Health Effects	Acute	Chronic
Eyes	Eye irritation, eye abrasion. Serious eye injury can occur due to abrasion from rubbing eyes!!	Not known.
Skin	Dry skin, skin irritation, alkali burns and allergic dermatitis in hypersensitive individuals.	Dry skin, skin irritation, alkali burns and allergic dermatitis in hypersensitive individuals.
Inhalation	Irritation or inflammation to the linings of the upper respiratory tract.	Over-exposure to crystalline silica over a period of years may lead to silicosis (a permanent and sometimes fatal lung disease) and possibly lung cancer. This product may aggravate existing respiratory conditions.
Improper Dry- out	Physical injury due to steam spalling or explosion of cured product.	Not known.
Toxicological information	Moderately irritating via ingestion and respiration – no significant toxic effects for reasonably foreseeable quantities.	None found.

3. Composition/Information on Hazardous Ingredients

Name	CAS-No.	Weight%	OSHA/PEL	ACGIH TLV	Carcinogen
Crystalline Silica Forms	As below				NTP-yes
					IARC-Group -1
Quartz	14808-60-7	5 - 15	0.10 mg/M ³ (resp)	0.10 mg/M ³ (resp)	
Cristobalite	14464-46-1	0 - 5	0.05 mg/M ³ (resp)	0.05 mg/M ³ (resp)	
Tridymite	15468-32-3	Not detected	0.05 mg/M ³ (resp)	0.05 mg/M ³ (resp)	
Sodium Silicate	1344-09-8	10 - 30	Not established	Not established	No

This product is composed of a blend of processed alumina-silicate earth minerals (including calcined and uncalcined clays and aggregates) that are bonded by sodium silicate. Upon drying they form a hard adhesive bond for refractory materials. Dust generated during manufacture, installation and tear-out may pose a respiratory hazard if exposure is sufficient.

4. First Aid Measures

Remove to fresh air. Give CPR and Oxygen if needed.

Eye Contact:	Flush eyes with water or eyewash solution for 15 minutes and get prompt medical attention if relief is not obtained immediately. DO NOT RUB EYES!!! Injury due to abrasion may result.					
Skin Contact:	Wash irritated areas gently with soap and water to avoid abrasion. Skin lotion may relieve irritation. If irritation is not relieved within several hours consult a physician.					
Ingestion:	Do not induce vomiting. Give a cup of water if conscious.					
	5. Fire Fighting Measures					
Flammable Properties:	Non-flammable; no applicable flash point.					
Explosion Hazards:	Hardened concrete which has not been properly dried is subject to explosion upon rapid heating due to internal steam pressure.					
	6. Accidental Release Measures					
Personal Precautions:	Dust generated during manufacture, installation and tear-out may pose a respiratory hazard if exposure is sufficient.					
Methods for Clean Up:	All personnel engaged in cleanup should adhere to the instruction outlined in Section 8 for personal protection.					
	7. Handling and Storage					
Handling: and tear-out.	Care should be exercised to prevent generation of dust during handling, installation, use					
	Avoid skin and eye contact and breathing of dust.					
	Do not ingest.					
	Proper refractory practices <u>must be followed</u> for curing, dry-out and firing to service temperature.					
Storage:	Store in a dry area away from extreme heat.					
	8. Exposure Controls and Personal Protection					

Appropriate control measures include dust prevention, dust containment and ventilation supplemented by the use of appropriate NIOSH approved respirators for the exposure conditions.

Safety glasses should be used if splashing is likely. Impervious gloves, boots and protective clothing should be used as needed to prevent excessive skin contact.

Wash skin and clothing with soap and water after contact with material.

Clean-up of spills should be done in a way to minimize dust, including vacuuming and wet methods.

9. Physical and Chemical Properties

Appearance: Brown t	o buff colored, granular paste	Melting Point: Greater than 2,000°F		
Physical State: Paste		Water Solubility: Slightly		
, Odor: No disti	nct odor	рН: 9-11		
	ecific gravity= 2.0 - 3.0 (water =1)			
) (ac	10. Stability and Reac	tivity
