New Inventory Items:

We are supplementing our stock of Big Timber structural and multi-purpose screws this month.

Likewise we are adding to our torx drive exterior decking screws the 1-5/8" and 3-1/2" lengths (in addition to the 2", 2-1/2" and 3" already in stock).

Also, we are adding 10' and 12' Fiberglass Stepladders Type 1A from Werner. This is in addition to the 4', 6' and 8' already in stock.

Commodities Update:

- For those of us silly enough to think that the price of lumber and panels would have returned to something close to normal by now, we know that was too much to hope for. In fact, after a short pause (with no actual price decline) both SPF and SYP dimension lumber have resumed their ridiculous increases. SYP lumber (from which we get our treated lumber) in the last two days has increased between \$60/MBF and \$100/MBF. Prices being quoted are well above the Random Lengths printed prices which usually serve as the standard for where the market prices should be. Panel prices can still only be describes as astronomical (well, maybe a few other words could describe them too).
- Roofing shingles remain very tight-supply wise. We've been waiting for two loads to arrive- both ordered months ago!
- Fiberglass insulation and spray foam costs rose late last month and will raise our retails in early May. These products are still very difficult to receive on a timely basis because of the extreme demand.
- USG Interiors will raise grid prices by 10% on May 10.
- Again, steel stud manufacturers have announced 10% price increases for May and June!
- Dupont has announced a styrofoam and HiR sheathing increase of 8% and 7.5% respectively. We will raise retails in early May.
- One of our main millwork suppliers has announced a 5.5% increase on interior door units and 6.5% increase on exterior pre hung door units effective June 1.

Quote to Think About:

Words Worth Reading:

By, Fr. Jim Cesta

Imagine there is a bank..

...that credits your account each morning with \$86,400. It carries over no balance from day to day. Every evening it deletes whatever part of the balance you failed to use during the day. What would you do? Draw out every cent, of course!!!

Each of us has such a bank. Its name is TIME. Every morning, it credits you with 86,400 seconds. Every night it writes off, as lost, whatever of this you have failed to invest to good purpose. It carries over no balance. It allows no overdraft. Each day it opens a new account for you. Each night it burns the remains of the day. If you fail to use the day's deposits, the loss is yours. There is no going back. There is no drawing against the "tomorrow". You must live in the present on today's deposits. Invest it so as to get from it the utmost in health, happiness, and success! The clock is running so make the most of today!

To realize the value of ONE YEAR, ask a student who failed a grade.
To realize the value of ONE YEAR, ask a mother who gave birth to a premature baby.

To realize the value of ONE YEAR, ask the editor of a weekly newspaper.

To realize the value of ONE YEAR, ask lovers who are waiting to meet.

To realize the value of ONE YEAR, ask a person who missed the train.

To realize the value of ONE YEAR, ask a person who just avoided an accident.

To realize the value of ONE YEAR, ask the person who won a silver medal in the Olympics.

Treasure every moment that you have! YESTERDAY is history, TOMORROW is a mystery, TODAY is a gift-that's why we call it the PRESENT!
