Commodities Update:

- Dimension lumber: Over the course of the last few weeks the dimension lumber market has seen some nice drops in most all species. While this is good news for us and our customers, the prices are still quite high and if dealers / distributors jump in to restock their light inventories, we may see an uptick in prices. This is what happened with PT lumber late last year and once it started going back up it didn't stop until the last few weeks!
- Panel products: Both OSB and SYP plywood remain hot commodities. As of this writing the market is still red hot and availability of product is poor. Huber products (Zip and Advantech) are still ridiculously high priced and still hard to source.
- Quikrete has announced an unusual mid season price increase on its bagged masonry products effective 7/1/21. The increase is relatively modest and we will reflect the increase by mid July in our retails.
- Dupont styrofoam rigid insulation will increase 10-12% on July 7.
- Once again, Clark Dietrich and other steel stud manufacturers have announced a 10% increase for July 1. Expect the same again in August.
- PlyGem, our vinyl siding manufacturer, who packages our siding under the Georgia Pacific name, has had a extremely difficult time keeping up with demand and has been one month or more late on its promised deliveries. We are working with secondary suppliers to keep our lead times more reasonable.
- Durock cement board, interior finishing products (compound) and plaster products from USG have increased June 1 by 5%. We will wait to raise our retails until we see where we are when the dust settles!

Quote to Think About:

"Rudeness is the weak person's imitation of strength." -Eric Hoffer

"You can't wait until life isn't hard anymore before you decide to be happy."

-spoken by a young cancer sufferer who sang a very inspiring song on America's Got Talent.

New Inventory Items:

- We have purchase a new insulation blowing machine for cellulose and loose fiberglass insulation. The rental is at no cost for a purchase of 20 bags or more.

Words Worth Reading:

Aibileen, a black housekeeper for a white family in Jackson, Mississippi, caring for Mae Mobley a four year old child...

"Come on, Aibee," Mae Mobley say to me after her mama gone. "Time for my secret story."

We go on in her room, where we like to set. Get up in the big chair and she get up on me and smile, bounce a little. "Tell me, tell me bout the brown wrapping. And the present." ...

That's her favorite story cause when I tell it, she gets two presents. I take the brown wrapping from my Piggly Wiggly grocery bag and wrap up a little something, like piece a candy, inside. Then I use the white paper from my Cole's Drug Store bag and wrap another one just like it. She take it real serious, the unwrapping, letting me tell the story bout how it ain't the color a the wrapping that count, it's what we is inside.

-from The Help by Kathryn Stockett

Brain Builder: (a hypothetical- not actual problem...yet.)

A piece of Advantech underlayment and a piece of ½" CD plywood costs \$840 total. The Advantech is \$360 more than the ½" CD. How much is the ½" CD?

Go to
lilionlumber.com or
for the answer!

Hardware humor:

"George! Great news! I found my ring! I didn't wash it down the sink after all! It was on my dresser the whole time!"
