White PVC Base Shoe Moulding

PVC (polyvinyl chloride) base shoe molding. Designed to conceal small inside corner gaps or to ease the transition between floor and wall molding. Ready to install and water resistant. Paintable with 100% acrylic latex paint. Ideal for interior or exterior use. Also resistant to rot and termites. Cuts like wood, no special tools required. Installs with nails and adhesive. Will not split or crack.

3/8" x 11/16" x 8'
