## Commodities Update:

- Dimension lumber: SPF lumber is showing signs of weakness in pricing as talk of the housing slowdown and rising interest rates has buyers being more cautious on their purchases. For some strange reason, SYP lumber (treated) has been going in the opposite direction as sales continue to be strong and prices on most widths are escalating.
- Panel products: Both SYP plywood and OSB seem to be holding steady, if not increasing, in pricing. Funny as it sounds, there will be occasional signs of increases and other signs of a decrease. It seems the market is not sure what direction it's going to go in.
- The gypsum price increase of last month has been fully implemented. Most all ended up increasing \$.025/SF. The gypsum manufacturers are still extremely busy and some product (Ecosmart panels, Imperial sheetrock, etc.) have longer than usual lead times. Joint treatments is another category with long lead times and resultant price increases. We haven't, until now, raised our retails on this product group, but this month we will. It is entirely possible to see \$20 pails of Joint compound!
- Various products in the metals category continue to see price reductions.

## Words Worth Reading:

**"At Peace"**

by Amado Nervo

As I approach my twilight, I bless you, Life,  
because you gave me no false hope, nor unjust  
labor, nor undeserved pain;

because at the end of my long journey I see that I  
was the architect of my own destiny;

that if, in things, I tasted the honey or bitterness  
within, it was because, in them, I put honey or  
bitterness to begin: when I planted rosebushes, I  
always harvested roses.

And yes, spring blossoms were followed by winter:  
but you never promised me that May would last  
forever.

It's true, there were long nights of pain and sorrow;  
but you never promised me that all my nights  
would be good; and indeed, some were divinely  
serene.

I loved, I was loved, the sun caressed my face. Life,  
you owe me nothing! Life, we are at peace!

## Hardware Humor: Close to Home

*"Nails? Hmm...let me think...OK, you need to catch the  
green tram to sector I-48. Pick up the brown tram there at  
1:15 and take it to the end of the line.  
Head west..."*
