Employment opportunity available in our Ilion Lumber yard. We are seeking a delivery person/yard help. Application must have a clean license. Year round full time work. Competitive pay and full benefits package.

Commodities Update:

- Panels: OSB pricing has not moved much, since supply seems to be matching demand. SYP plywood continues to be a bargain compared to where it was in the first half of the year.
- Dimension lumber, in general, has been steady with some items even continuing to get cheaper. The opposite is true for SYP dimension (from which we get our treated lumber). While not increasing terribly, there are many dimensions that are rising in price. The lumber futures market for early next year indicates that there will be an upswing in prices.
- Gypsum products continue to have their availability issues due to high demand and a shortage of key raw materials. This is something we've been dealing with for more than a year, but USG has notified us that their situation could get worse in the next few months. In situations like this, it often means a price increase is on the horizon also.
- JM, as expected, did announce a fiberglass price increase of 10% effective February 7, 2023. Our retails will not go up at least until the end of that month.
- Rockwool insulation is also scheduled to increase by 6% effective February 1, 2023

Words Worth Reading:

"My Sons"

I love you because you exist,
because you are you,
and because you are mine.
And there is nothing else that matters.
I love you with a love that's calm and steady,
an everyday love that pulls me along every day.
I love you with a love that's immense and fierce,
that bursts out of my chest,
dares the world,
and screams for you to hear it.
I love you with a heart that aches with hope
for your health and your happiness.
I don't love you because you love me,
or because of what you do or don't.
I don't love you because I have to,
or because I choose to.
I love you because it is impossible for me not to.
You are a part of me and I am a part of you
forever.
I want to keep you close,
as you grow up and I grow old,
But, come what may--
distance,
disagreements,
even death--
know this:
I love you
simple because you are.
