Commodities Update:

- Panels: OSB is still lingering near its low end on pricing. Don't expect it to decrease much more. SYP plywood, also, near or at its low, although there is quite a gap between OSB and plywood costs.
- Dimension lumber, we've been posting the last few months, has been at its low also, but seems to find a way to go lower still. Don't expect this to last long into the new year.
- Quikrete will raise prices on bagged masonry products in the 6-8% range effective January 1. We will raise our retails by mid January. Ed
- USG, as expected, has announced price increases of various product lines to be effective January 16. They are:
 - All wall board products
 - Durock cement board
 - Interior finishing products- Joint compound, Tape, Texture, Plaster and Accessories.
- It's been a while since we've had one of these, but Clark Dietrich is trying for a 10% steel stud increase for January 3.
- JM fiberglass insulation, and Knauf basement blankets, will increase by 10% effective February 7.
- Rockwool insulation, as reported last month, will increase by 6% on February 1.
- LP will increase all siding products (including Smart Side) 3-5% on January 2.

Quote to Think About:

"No one is useless in this world who lightens the burdens of another."

Charles Dickens

New Inventory Items:

- Zip System Peel & Stick Roof Underlayment (Ice & Water Shield) 200SF. Very similar to the WR Grace product.

- 4X8X7/16" Zip R sheathing with 1" insulated R sheathing R-6.6
- Simpson Strong Tie Titen HD Galvanized Screw Anchor (like Tapcons on steroids!) ½"X4", ½"X6" 

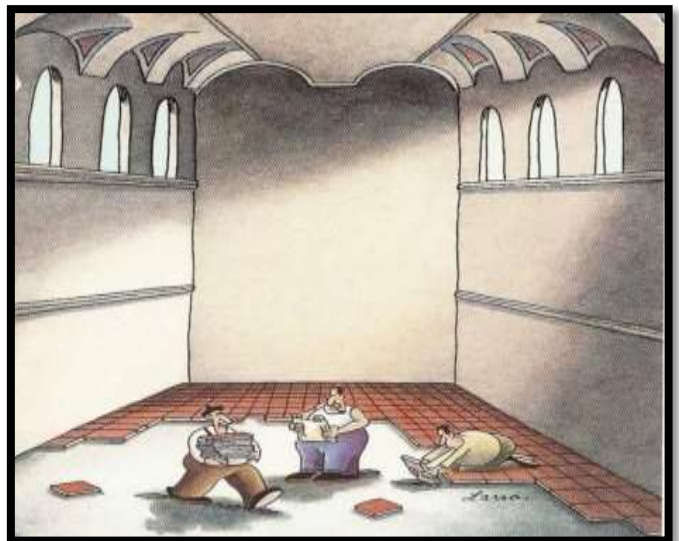

Words Worth Reading:

We could complain about the terrible things that befall us, but that would be a waste of time. Adversity is a part of life. I have never met anyone who achieved success without first overcoming some misfortune. I'm sure if I asked you to discuss your accomplishments, you would highlight the obstacles you overcame to achieve your goals. Did you know that Thomas Edison went through 5,000 different elements before discovering the one that enabled him to invent the electric lightbulb? He could have stopped after his five hundredth miss and no one would have called him a quitter, but he kept working toward his goal while learning from every failed attempt. Like all winners, he saw his obstacles as opportunities.

Winning Every Day
by Lou Holtz

Hardware Humor:

Although history has long forgotten them, Lambini & Sons are generally credited with the Sistine Chapel Floor.
