### Commodities Update:

- Panels: The OSB market has increased noticeably in the recent 6-8 weeks. The outlook, in the short term, is that prices will stabilize at these levels with only slightly lower numbers possible. SYP plywood has continued high demand as well but with not much upward movement expected.
- Dimension lumber: The SPF market seems to be finding more strength. The likelihood of increases this month is high. On the SYP (treated) dimension front, prices traditionally drop starting in August (and have dropped somewhat) but experts expect another bump before the building season winds down. Decking is still stubbornly holding its price levels though.
- A Tuesday 9/5/23 increase is announced by USG Interiors for a 7% increase on acoustical ceiling tile.
- USG has also announced an increase on interior finishing accessories- tape, texture products, primer, etc. for 8/28/23.
- OC, Certainteed and Knauf have announced an increase around 10/1/23 on fiberglass insulation of 6-12%. Our vendor, Johns Manville, will most likely follow.

### Quote to Think About:

A calm and modest life will bring more happiness than constant pursuit of success combined with constant restlessness.

Albert Einstein

### Words Worth Reading:

The old saying goes, “The tougher, the better.” But I like a friend’s perspective better. His belief is that without a “battle to fight” (figurative, or usually literal in his case), it is impossible for you to perform at your best or grow to your potential. It is that daily fight that brings out our best. Allows us to perform at a higher level. In a fight, we are sharper, quicker, smarter and when we survive, we look back smiling at being proud that we persevered and outlasted the others. I believe this, too. I don’t look forward to fighting, but looking back, there are very few things in my life that have come easy. From that, however, I have the gratitude and humility that comes from having earned all that I have. ....

Extreme challenges? I wouldn’t have it any other way. As I’ve shared in other columns, I see no prize or reward in the “easy path”. While at this age, the daily battle is a bit more tiring, I am proud that I work in an industry full of people who also wake up every day before the sun and welcome whatever the day has in store.

### Brain Builder: See if you can figure it out!

A farmer has nineteen sheep on his land. One night a big storm hits and all but seven run away. How many sheep does the farmer have left?

for the answer!

### Hardware Humor:

One hot summer day a man was taking a walk when he noticed his neighbor working outside. The man was painting the exterior of his house and was bundled up, wearing multiple heavy jackets. He was beet red and sweating profusely. His neighbor asked if he felt okay and why he was wearing so much heavy clothing. The man responded that he was simply following the installation instructions on the paint can- it said “for best results use two coats”!
