Commodities Update:

- Panels: OSB prices seem to be nudging up due to most mill order files being stretched out 3-4 weeks. SYP plywood pricing still clings to the high side of normal. We get conflicting messages with short lead times from order, but prices higher than they should be for the market we are in.
- Dimension lumber: SPF premium/Euro took increases of \$15-20/MBF for the last few weeks. Even so, prices are still reasonable. SYP (PT) prices are trying to gather steam. It is not the usual time of year to see substantial increases, so I wouldn't expect to see too much upward movement in the next month.
- Knauf fiberglass insulation has restated a January 1, 2024 increase of 8%. It is expected that, because of a notable shortage of product in the market, other manufacturers will follow suit.
- As a note of interest, we're finding our Rockwool insulation orders to have longer lead times than usual. We suggest you plan ahead for this product's purchases for the next few months.
- Clark Dietrich, our steel stud vendor, has increased prices by 10% on November 27, 2023.
- LP has announced a January 1, 2024 increase on all products (including LP SmartSide siding) of 3-8%.
- USG will be making a rolling change in the color of their joint treatments pails from white to black. The lids will remain the same color and there will be no change in the product formulation.
- Bagged Portland and Masonry cements will increase by \$.60/bg and \$.40/bg respectively on January 1, 2024.

Quote To Think About:

"These are the same stars, and that is the same moon, that look down upon your brothers and sisters, and which they see as they look up to them, though they are ever so far away from us, and each other."

Sojourner Truth

Words Worth Reading:

Mother Theresa diagnosed the world's ills in this way: we've just "forgotten that we belong to each other". Kinship is what happens to us when we refuse to let that happen. With kinship as the goal, other essential things fall into place: without it, no justice, no peace. I suspect that were kinship our goal, we would no longer be promoting justice- we would be celebrating it...

Often we strike the high moral distance that separates "us" from "them", and yet it is God's dream come true when we recognize that there exists no daylight between us. Serving others is good. It's a start. But it's just the hallway that leads to the Grand Ballroom.

Kinship- not serving the other, but being one with the other. Jesus was not "a man for others"; he was one with them. There is a world of difference in that...

And so the voices at the margins get heard and the circle of compassion widens. Souls feeling their worth, refusing to forget that we belong to each other. No bullet can pierce this. The vision still has its time, and, yes, it presses on to fulfillment. It will not disappoint.

Brain Builder: See if you can figure it out!

If you write all the numbers from 300 to 400 on a piece of paper, how many times would you have written the number "3"?
