Commodities Update:

- Dimension lumber: **SPE lumber** is seeing a strengthening market with all items increasing, especially 2x10. 2x6 is currently more difficult to source. Expect this market to remain elevated for the near term. **SYP (PT) lumber** is expected to start receding in price these next few weeks having already experienced its seasonal run. This applies to all but timbers- 4x4-6x6 whose demand remains strong. Perma-Column, the **Glulam column/ Glulam-precast concrete column** company is announcing a 3-5% increase for August 14.
- Panels: **OSB** mill pricing remains flat but increased trucking rates are adding to elevated costs. The **SYP plywood** market remains strong for the time being but may have seen its highs for the time being.
- Acoustical ceilings: Both USG Interiors and Armstrong Ceilings have announced **grid** increases (10%) and **tile** increases (7%); Armstrong for the end of July and USG Interiors for August 10.
- Metal products: For many months in a row now Clark Dietrich and other **steel stud** manufacturers have announced increases- this next one (in addition to August already reported) for September 1. Steel studs and accessories are getting noticeably more costly! AFCO Mfg, our **metal column** vendor, has announced another \$5.00/ column increase effective immediately. Amerimax has taken a large jump on aluminum **fascia** and **trim coil**. We reported this in the winter months and it is taking place now. Trim coil costs are up 25-30% .
- Insulation products: The expected **fiberglass insulation** increase for last month has been put on hold for now but the **Rockwool insulation** increase expected to be 8% has been bumped up to 10% due to transportation cost increases.

New Inventory Items:

We've brought in a new line of **PVC electrical conduit and accessories**- six sizes (1/2", 3/4", 1", 1-1/4", 1-1/2" and 2").

Words Worth Reading:

A Buddhist monk asked students a question. "If you're carrying a cup of coffee and someone bumps into you, why did you spill your coffee?" Every one of the students said it was because someone bumped into me. He said "No, you spilled your coffee because that's what you were carrying in your cup. Now, if you were carrying water, you would spill water."

Then he said something profound.

"Whenever life shakes you, whatever you are carrying is going to spill out so if you are carrying fear, or jealousy or anger or greed, that's what's going to spill out."

"If you're carrying love, compassion, kindness or empathy, that's what's gonna spill out."

"So each and every day you should pause and think to yourself 'what am I carrying in my cup today?'"

From an Instagram post

Dad joke of the month:

I went to the bookstore the other day and saw a book entitled "How to Solve 50% of Your Problems". So, I bought two copies.

Quote to Think About:

"For beautiful eyes, look for the good in others;
For beautiful lips, speak only words of kindness;
And for poise, walk with the knowledge that you are never alone."

Audrey Hepburn

Hardware Humor:

"It's hard to believe you've never put up wallpaper before."
